

Clamp-On Current Probes

PDI's **CA-400A** and **CA-400D** safely measures AC or AC/DC current up to 400A without breaking the circuit or removing insulation. The **CA-400A** and **CA-400D** clamps have selectable ranges so technicians can take precise readings in their desired range.

- Measure AC current up to 400A
- No need to break the circuit
- Measure through wire insulation
- Measure up to 1 ¼" conductors
- Three selectable current ranges
- Non-contact voltage detection
- Durable co-molded housing
- CATIII 600V & CATIV 300V rated
- Two year warranty

CA-400A

CA-400D

- Measure AC/DC current up to 400A
- No need to break the circuit
- Measure through wire insulation
- Measure up to 1 ¼" conductors
- Four selectable current ranges
- Non-contact voltage detection
- Durable co-molded housing
- CATIII 600V & CATIV 300V rated
- Two year warranty
